

Wireless Business Solutions.
Backed by TELUS.

Why choose TELUS for your business?

TELUS provides mobility solutions that deliver real business value. By choosing TELUS, your business benefits from:

- Superior client experience
- Integrated services from one communications provider
- Innovative solutions

Get where the going's good.

superior client experience

A higher percentage¹ of clients stay with TELUS than any other national wireless provider. That's because TELUS takes the time to understand your business requirements and then matches a solution to your business needs. The confidence we have in our solutions, network and service is reflected in our financial commitment behind our future friendly[®] promises:²

- **Network promise.** Make a call and if even 1% of your calls are dropped, we'll credit your account.³
- **Fast client service promise.** If you wait longer than five minutes in our client care queue, we'll credit your account.⁴
- **New phone promise.** TELUS offers the latest in wireless technology. You will receive a new phone upgrade at least every three years when you sign with TELUS on a 3-year contract. Data clients are eligible for upgrades every two years.

integrated communications provider

- As an integrated provider, TELUS offers a full range of wireless and wireline communications solutions, support and account management
- We work with you to understand your specific business requirements and then address those needs holistically by offering the right combination of relevant business communications solutions
- The TELUS Business One[®] Bundle is one example of our commitment to integration. The Bundle is the first truly complete solution in the market for small to medium size businesses, offering powerful, easy-to-use communication tools with one support number, for one price, on one bill.

¹ Based on 2006 Canadian blended churn numbers.

² Visit telusmobility.com/promises for conditions and full details.

³ This promise applies to voice calls only. Network Service Credits are up to 100 minutes (PCS or Mike) and are applied annually.

⁴ The fast client service promise does not apply to calls into the Wireless Business Solutions (WBS) contact centre.

⁵ Based on largest coverage area and fastest coast-to-coast wireless EVDO network speeds – not available in all areas.

innovative solutions

At TELUS, our work with small and medium business clients has given us unmatched insight into developing and managing innovative solutions that provide the additional business value you're looking for.

Push To Talk[™] leadership

- TELUS introduced digital Push To Talk to Canada and is the only wireless carrier in Canada to offer two separate Push To Talk networks – Mike[®] and PCS
- We are the exclusive provider of Mike, which has the largest user community with 25 million international and 22 million North American users
- We offer the widest national selection of handsets, from rugged to sleek, including handsets that meet military specs

broadest selection of PDA and BlackBerry[®] smartphones

- TELUS offers the widest selection of PDA and BlackBerry smartphones in Canada
- Our PDA and BlackBerry smartphones do more through practical, ready-to-deploy applications that improve your business operations
- TELUS is the only Canadian carrier to offer Push To Talk on a BlackBerry smartphone

Canada's most powerful wireless network

- TELUS offers access to the largest and fastest coast-to-coast network in Canada⁵ with wireless high speed EVDO service in over 85 cities and towns across Canada and over 242 cities in the United States
- TELUS is also the only wireless carrier in Canada to offer a choice of two dedicated networks (PCS and Mike) to complement any business requirement

business leader in handset-based GPS solutions

TELUS is the only carrier in Canada with a full suite of GPS solutions for navigation, tracking, dispatching and managing mobile business assets.
